

project: EXPO train stations , Hannover / Germany, featured in “European Softwood print advertisement campaign” (Spruce wood EXPO train station) by the Nordic Timber Council, the Forestry Commission, the UK Sawn Wood promoters, the Timber Trade Federation, the Timber Growers Association, and the Northern Ireland Forest service, London/UK 2000

street art

Wood is beautiful, there's no denying. It brings life and wit to the street. But art for art's sake it is not. Wood is practical and long lasting. When pre-treated with the new generation of environmentally friendly preservatives*, it lasts for years with virtually no maintenance. To learn more about specifying, detailing and finishing European softwood for outdoor use, visit www.woodforgood.com or ring 0800 279 0016. *Water-borne preservative (Fialaka)

'wood. for good' is a promotional campaign sponsored by the Nordic Timber Council, the Forestry Commission, the UK Sawn Wood Promoters, the Timber Trade Federation, the Timber Growers Association, and the Northern Ireland Forest Service. All sponsors are committed to sustainable forest management and encourage independent certification.
